

MD. BAYAZID AHAMED

Electrical & Electronic Engineer

B.Sc. in Electrical and Electronic Engineering | Major: Power
Industrial Automation - Power Systems - Renewable Energy

Power-focused EEE graduate with practical exposure to industrial automation, photovoltaic systems, power electronics, control systems, circuit design, PLC/HMI/VFD applications, and engineering simulation.

EMAIL bayazidahammed24@gmail.com	PHONE 01755486082 / 01610016560	LOCATION Dhaka, Bangladesh
CGPA 3.58 / 4.00	ACADEMIC HONOR VC List - Spring 2022	CAREER FOCUS Power Automation Solar

Prepared from CV, academic transcripts, certificates, training records, and achievement documentation.

01 Professional Profile

A concise overview of engineering strengths, career direction, and verified credentials

Electrical and Electronic Engineering graduate with a CGPA of 3.58/4.00 and a Power major concentration. Practical exposure spans industrial automation, photovoltaic systems, power electronics, control systems, circuit design, and engineering software. Hands-on training includes PLC programming, HMI visualization, VFD control, relay logic, industrial sensors and actuators, pneumatic/hydraulic systems, and PLC-based control design.

CORE ENGINEERING AREAS Power systems Power electronics Control systems Renewable-energy systems Circuit design and equipment protection	AUTOMATION & CONTROL PLC programming HMI design and process visualization VFD control using PLC Relay-logic control Hydraulic and pneumatic control
ENGINEERING SOFTWARE MATLAB COMSOL Multiphysics Proteus Siemens TIA Portal Microsoft Excel / Word / PowerPoint	CAREER TARGETS Electrical engineering Industrial automation Power and control Renewable energy / solar systems Entry-level engineering roles

Professional positioning

Best aligned with graduate or junior roles where power-system fundamentals, industrial control, PLC-based automation, solar/renewable-energy exposure, and practical engineering problem-solving are valued.

02 Education & Academic Record

Formal education, result summary, and selected engineering coursework

Period	Qualification / Institution	Focus	Result
2022 - 2025	B.Sc. in Electrical and Electronic Engineering Green University of Bangladesh	Major: Power	CGPA 3.58 / 4.00
2019	Higher Secondary Certificate (HSC) Amena-Baki Residential Model School & College, Dinajpur	Science	GPA 4.50 / 5.00
2017	Secondary School Certificate (SSC) Amena-Baki Residential Model School, Dinajpur	Science	GPA 5.00 / 5.00

Selected relevant coursework

FOUNDATION	POWER & CONTROL	DIGITAL / COMPUTING
Electrical Circuits I & II Energy Conversion I & II Engineering Electromagnetics Electronics I & II Digital Electronics	Power Systems I Transmission & Distribution of Electrical Power Power Electronics Power System Protection Control System	Microprocessor & Interfacing Computer Programming Signals and Linear Systems Digital Signal Processing-I VLSI

Academic distinction

Placed on the Vice-Chancellor's List of Meritorious Students for Spring Semester 2022 in recognition of outstanding academic performance.

03 Technical Competency Matrix

Skills documented in the CV, university record, projects, and industrial training certificate

Industrial Automation	PLC programming PLC installation and wiring with configuration Ladder diagram programming Relay-logic sequence control Industrial sensors and actuators HMI process visualization VFD control using PLC PLC-based control-system design
Electrical & Power	Power electronics Electrical circuit design Equipment protection Power-system fundamentals Power-system protection Renewable-energy systems Energy conversion
Control & Mechatronic Applications	Hydraulic and pneumatic control Industrial motor-control sequences DOL control Forward-reverse control Star-delta control Automatic transfer switching
Engineering Software	MATLAB COMSOL Multiphysics Proteus Siemens TIA Portal
Productivity & Other	Microsoft Word Microsoft Excel Microsoft PowerPoint Website developing (listed in CV)

04 Industrial Training

Hands-on exposure from BITAC and Bangladesh Power Development Board

300
HOURS

Advanced Technical Skills Training - INDUSTRIAL AUTOMATION

Bangladesh Industrial Technical Assistance Center (BITAC), Dhaka | 26 Apr - 22 Jul 2026

Training certificate issued under the Skills for Industry Competitiveness and Innovation Program (SICIP), Finance Division, Ministry of Finance, Government of Bangladesh.

Competencies achieved through the BITAC training

1. Apply Occupational Health and Safety (OHS) practices in the workplace	6. Integrate industrial sensors and actuators
2. Operate in a self-directed team and apply green practices	7. Perform process visualization using HMI
3. Execute electrical sequence circuits and control using relay logic	8. Operate pneumatic and hydraulic systems using PLC
4. Implement PLC installation and wiring with configuration	9. Control Variable Frequency Drive (VFD) using PLC
5. Carry out ladder diagram programming in PLC	10. Design and develop PLC-based control systems

Bangladesh Power Development Board (BPDB)

Industrial Training | Directorate of Training and Career Development, BPDB, Dhaka | Official certificate period: 12 Jan - 22 Jan 2026

Completed industrial training as an EEE student of Green University of Bangladesh. The certificate confirms successful completion but does not list specific training modules.

05 Final-Year Thesis

Renewable-energy research focused on photovoltaic thermal management

ENHANCEMENT OF PHOTOVOLTAIC CELL EFFICIENCY USING A HYBRID NANOFLUID COOLING SYSTEM

Final-Year Thesis | B.Sc. in Electrical and Electronic Engineering

Research focus

Investigated a hybrid nanofluid cooling approach intended to reduce photovoltaic-cell operating temperature and improve conversion efficiency.

DOMAIN	ENGINEERING THEME	TARGET OUTCOME
Photovoltaic / Solar Energy	Thermal Management	Improved PV Efficiency

Portfolio relevance

The thesis aligns directly with the renewable-energy and solar-system interests listed in the CV, while complementing the candidate's Power concentration and engineering simulation exposure.

06 Engineering Project Portfolio

Selected academic and industrial-control projects

Industrial Motor Control System

PLC & Electrical Control Project

Configured Siemens S7-1200 PLC programs using TIA Portal.
Executed DOL, forward-reverse, and star-delta motor-control sequences.

TOOLS / FOCUS: Siemens S7-1200 | TIA Portal | PLC | Motor Control

PLC-Based Traffic Light Control System

Industrial Automation Project

Engineered a PLC-based traffic-light control system using ladder logic and timers.
Automated signal sequencing and pedestrian-crossing operations.
Verified functionality through simulation and practical testing.

TOOLS / FOCUS: PLC | Ladder Logic | Timers | Sequence Control

Automatic Transfer Switch (ATS) System

Power & Control System Project

Built an ATS system for automatic switching between utility and backup power.
Integrated relay contact/control with electrical protection features.

TOOLS / FOCUS: ATS | Relay Control | Electrical Protection

07 Additional Academic Projects

Circuit, prototype, automation, and energy-conversion work

Sensor-Based Traffic Light Control	Built a sensor-based prototype for traffic-signal control.
Motor Control Using a Water-Level Indicator	Built an automatic motor-control system responding to water levels.
Buck and Boost Voltage Converter	Designed DC-DC buck and boost converter circuits.
Equipment Protection Circuit Design	Designed a circuit concept for electrical-equipment protection.
Wireless Power Transfer	Developed a prototype for contactless electrical power transfer.

Project profile summary

The project record demonstrates exposure across PLC automation, electrical control, switching, motor control, DC-DC power conversion, protection concepts, sensor-based control, and contactless power transfer.
